

DuraTech Tough. Road Ready.

TC-12 Tree Chipper

DuraTech has taken the grinding technology of its massive tub and horizontal grinders and harnessed it for use in the new TC-12, 12inch tree chipper. With a 122 hp (91 kw) CAT C4.4 diesel engine or Kubota V3800 88 hp (74 kw) and PT Tech clutch, the powerful TC-12 can grind limbs and logs up to 12 inches in diameter. The TC-12 features a spring-loaded feed wheel with adjustable down pressure, an optional height sensor that automatically adjusts the feed roller to material size, an optional hydraulic gathering winch, and innovative hopper safety light bars with easy and instant shut down of the feed wheels. Available with a pintle or ball hitch, this chipper is powerful but compact to easily tow to a job site.
